

Be the Illustrator

A good book illustration doesn't just give a picture of what the words say; it helps to tell the story by providing additional information about what is going on that isn't necessarily told in the words. For this assignment, you will create an illustration for the reading. Use the space below to write down some ideas for your picture. Then make your drawing on a separate piece of paper.

Presenting Your Work

When invited by the discussion director, show your picture to the group, but don't comment on what you have done. Group members will take turns saying what they think your picture means, how it relates to the reading, and what you are trying to communicate with your picture. After everyone has said what they think, you may explain to the group what your picture means, where your idea for it came from, and what it means to you.
