

Name: _____

Indian Houses

Native Americans lived in many different kinds of houses. In the West, some lived on cliffs. Others lived in little towns of clay houses. In the East, some lived in teepees. These were made of animal skins. Others lived in log houses.

Some had both summer and winter houses. The Florida tribes had summer houses with no walls. In winter, they used mud houses.

Match the detail with the key point it supports.

Details:

1. In winter, they used mud-plastered houses. _____
2. Some lived in teepees made of animal skins. _____
3. Some lived in caves on cliffs. _____

Key Points:

- A. Some had both summer and winter houses.
- B. Native Americans lived in many different kinds of houses.
