## **It's Spring!** (SAMPLE ANSWER KEY)

One sign of spring is the buds growing on trees. Write about three other signs of spring:

1. Sign of spring: Butterflies and other insects come out.

Supporting details: Butterflies and insects are associated with spring because we often see them around flowers.

\_\_\_\_\_

2. Sign of spring: Flowers bloom.

Supporting details: Flowers bloom in the spring because the weather is no longer cold. Flowers can grow their blooms and fruit before the weather turns cold again.

3. Sign of spring: Baby animals are born.

Supporting details: Baby animals are born in the spring because the weather during this season is ideal for their survival.
