### A Helper Must Be...

The school is hosting a caroling party for the students and their families, and is hiring 3 to 6 children from your class to come in and help out with the smaller children while their older siblings and parents go caroling. Your payment for 2 hours of pitching in is a big cupcake and cookie party at the end of the evening. Write a letter to the chairman of the caroling committee explaining why you would like to be a helper, and why you think you would be good at it. Make sure to include some of your past experience with smaller children to show that you are qualified for the job.
