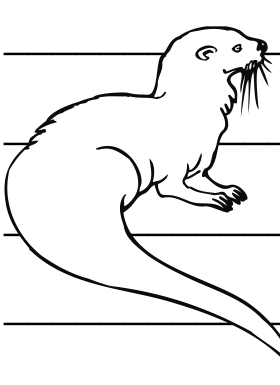
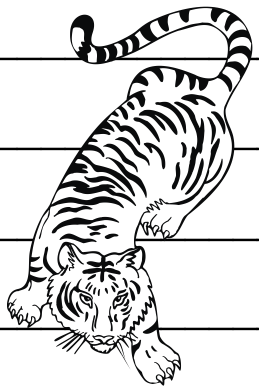
# A Mascot Decision

The principal of your school has decided that it is time to change the mascot of your school. On Friday morning there is an assembly where the principal announces that the new mascot will be chosen by the students. The three suggestions you have to choose from are the Tigers, the Cobras and the Otters. Each student can write an essay about which one they think will best suit the school. The animal that receives the most essays will be the new mascot.




**Write an essay about which of the three choices you believe would be the best for your school. Make sure you give convincing facts and arguments to support your choice.**
