Please Mom, Can I Keep Him?

Your best friend Bobby's cat had kittens. When you are playing at his house one of the kittens follows you and purrs really loud when you pet it. You would like to take the kitten home but you are not sure if your mom and dad will let you have one. Write the speech that you will give to them to convince them that you are old and responsible enough to take care of a pet. Make sure you use facts and details to back up your argument.
