

Name _____

A Trip to the Vet

Carolyn's puppy isn't feeling well. He hasn't had any kind of accident or physical injury, but he has no energy and no interest in anything. He didn't eat his breakfast. All day he has just sat in the corner of the kitchen, with his head drooping. Once he whimpered, and twice he yelped. So Carolyn brought him to the vet.

DIRECTIONS: The vet is going to ask Carolyn some questions about her puppy. Help Carolyn to answer the questions by using a thesaurus or a dictionary to clarify the meaning of the underlined words. On the first line, answer the vet's questions based on what you read about Carolyn's puppy. On the second line, write the word or phrase from the paragraph above that helped you to answer the question, or state that nothing was said about that particular question.

1. Is the puppy restless? _____

2. Is the puppy listless? _____

3. Does the puppy have an appetite? _____

4. Has the puppy regurgitated his food? _____

5. Is the puppy sedentary? _____

6. Has the puppy vocalized that he is in pain? _____

7. Has the puppy suffered any trauma? _____
