Read the following passages and underline keywords that help identify setting in each passage.

**Passage #1**

Archie moved slowly through the thick grass as he searched the field for any sign of movement. He knew that watching the grass was the only way to know if a crocodile was nearby. The sun was going down quickly and darkness was setting in, so Archie knew he needed to hurry. He couldn’t help but wish he had listened to his mom when she told him not to walk through the swamps at night.

**Passage #2**

Emma covered her head with her scarf to keep the wind from messing up her hair. The streets were never this busy so early in the morning. She heard horns honking and cars zooming by, but she kept her head down and walked quickly. Emma knew if she missed the bus again her dad would be angry. She had already been late for school three times this week, and the city bus did not wait for school children who were running late.

**Answer the following questions comparing the two passages.**

1. Which passage takes place in the evening?
   a. Passage 1  
   b. Passage 2  
   c. Both  
   d. Neither
