**DIRECTIONS:** For this exercise you will work with a partner. Ask your partner what role technology plays in his or her life. Does technology make life easier? More complicated? How? What recent experiences has your partner had with technology that he or she would like to share? Take five minutes apiece to talk, while the other takes notes, then switch roles. When you are finished, examine the notes you have taken. What single idea or point of view do you feel that your partner has expressed? Write a paragraph explaining your partner’s point of view. Use only the details from your notes that are relevant to your topic sentence and which support your partner’s claim.
