# Amazing Adjectives

Adjectives describe nouns. They can tell how many, what kind, or which one. They can tell us how something looks. They can tell us how something tastes. Adjectives are pretty amazing helpers. On the lines below, list ten adjectives. After you are done, write the adjectives on the blank lines in the paragraph in the same order in which you wrote them in the box. Don't look at the paragraph before you write your adjectives, though. It'll be a funny surprise!

My family and I like to go to the 1) \_\_\_\_\_ carnival every year. My 2) \_\_\_\_\_ sister likes the 3) \_\_\_\_\_ candy best. My brother likes to go on the 4) \_\_\_\_\_ ride. I love the 5) \_\_\_\_\_ smell of cheeseburgers wafting through the air. We often listen to the 6) \_\_\_\_\_ music being performed by various artists. I bought a 7) \_\_\_\_\_ t-shirt this past year. It's too 8) \_\_\_\_\_ for me now. I'll have to give it to my 9) \_\_\_\_\_ brother I guess. We always feel so 10) \_\_\_\_\_ after going to the carnival!
