

Name _____ **Following Directions**

Under the Microscope

DIRECTIONS: The bacteria are round. The viruses are long. Count the bacteria. Write the number of bacteria on the line in the top right-hand corner of the page. Count the viruses. Write the number of viruses on the line towards the bottom of the right side of the page. Color the viruses green. Circle the bacteria. Then total the number of viruses and bacteria and write that number on the line below this paragraph.
