Forces Of Nature Mad Libs

There was no gravity yesterday. I couldn't believe it! I first noticed, when I stepped outside and saw that all the _____ (something you find on the ground outside) were in the trees. Then, I saw there was a _____ (animal), with it's leash tied to a _____ (something attached to the ground), but it was floating _____ (a number) feet in the air, with only it's leash stopping it going any higher.

There was a _____ (a color) car as high as a _____ (a building), and an old man, clinging to a _____ (something else attached to the ground) with his _____ (an item used to help somebody walk).

But I didn't get to see much else, because before I knew it, my feet were off the ground and I was floating as high as a _____ (something really high). “_____ (a well known phrase)” I shouted in shock, as a _____ (a type of bird) flew past me.

I looked down at my house and could see my _____ (family member) shouting up at me to come back down, because my _____ (a daily meal) was ready.

It was at that moment, that everything returned to normal, and I was left feeling like somebody had stuffed my head full of _____ (something fluffy).
